SUSIE RAKER
VICE PRESIDENT

A Look Back on 2025 and a Bright Outlook for 2026

What an incredible year 2025 turned out to be! While the world felt its share of challenges, nature once again demonstrated to us of its resilience and beauty. At Raker-Roberta's Young Plants, this year was full of meaningful progress—we embraced opportunities to grow, innovate, and expand in ways that will keep us at the forefront of the horticultural industry.

One of our proudest milestones this year was the **expansion of our cut flower offering**. Through a large and robust trialing program we continue to push the boundaries of our Cut Flower Young Plant program. We continue to see good growth in this sector of the market.

Another standout moment was the launch of the **Firefly Petunia** to the industry. This groundbreaking plant has not only mesmerized our industry but also the consumer. Looking forward, we are actively working on an **expanded distribution plan for Firefly Petunia in 2026**, knowing this plant has incredible potential to thrive in even more hands. Firefly is doing

more than just turning heads—it's sparking renewed interest in gardening, opening the door to connect with a new generation of "gardeners" and passionate plant lovers. This fresh wave of enthusiasm presents new possibilities for expanding into retail channels, attracting younger audiences, and building lasting consumer engagement.

What's Ahead for 2026

Building on the momentum of this past year, we're entering 2026 with renewed energy and focus. Our team has expanded and refined our product selections to offer more targeted, results-driven solutions—so you have the tools you need to grow stronger, more successful seasons.

We're especially excited about our enhanced perennial program, which brings new depth and diversity to this important category. Perennials are more than just reliable—they reflect the long-term value and beauty that professional growers like you provide. With new introductions and time-tested selections, we're here to help you build offerings that keep your customers coming back year after year.

Our mission remains the same: to empower professional horticultural growers like you with the **best plants, expert support, and groundbreaking solutions** to ensure you stay ahead in a competitive field.

Explore Our 2026 Program

We invite you to explore our **2026 program**, designed to offer more robust solutions and opportunities for success. As always, Raker-Roberta's Young Plants is committed to adapting alongside you, providing both the plants and expertise necessary to help your business thrive. Whether you've been working with us for years or are just starting out, we look forward to being a trusted partner in your horticultural journey.

Thank you for your partnership, your passion, and for entrusting us to help cultivate your growing vision. Together, we will continue to find opportunities and beauty in the seasons ahead.

Here's to a thriving and vibrant 2026!

Sincerely Yours -

Susie Raker

Vice President, Raker-Roberta's Young Plants
